

**Big News!**

After tireless promotion, contacts and networking, things are starting to pay off. Your support through CD sales and concert attendance has also been crucial to the success so far.

We appreciate your support and also hope to see you at one of the many shows already booked for the season.

First Big Show Of The Season...April 23rd, St. Joseph MI

Bryan will bring his band and their signature mix of Jazz, Pop and Latin styles to the Box Factory For The Arts in **St. Joseph MI**. Its one of his favorite intimate venues.

With so many large events booked, this will be one of the few that will allow an "up close" show for the audience. The atmosphere in this venue is terrific - and add some unique stage decoration and you'll really feel the music and the "vibe".

Tickets are available for \$15.00 at all Michigan Meijer stores or online at www.starticketsplus.com. You can also pick up tickets at the Box Factory the day of the show, but it is expected to sell out so reserve them early - and at a discount (*price is only \$12.00 if you purchase now.*)

Sponsors are Cosy 98.3 Smooth Jazz, Tabor Hill Winery and Schroeder Furniture. Bose will also be featuring the performance on their website and will have a representative on hand to talk about the new system of theirs that Bryan uses.

Microphone/Electronics giant endorsemet...

Recently the leader in stage microphones and wireless technology brought on Bryan as an officially endorsed artist. This is a big honor.

Thanks to Sennheisers' incredible wireless instrument technology, Bryan will be able to roam the stage a little more freely without the sound suffering one bit. In return there will be some shameless plugs for them!

A special thanks to Brian Bavido - soundman extraordinaire - for helping to put the two together. Nobody mixes Smooth Jazz better than Brian Bavido and his "Full Range" crew at www.fullrange-sound.com.

CD continues increased radio play...

Even more radio, satellite and internet stations have picked up the CD and the website recieved almost 6,000 unique visitors this month alone. The buzz is really starting to work well.

One of the top online Jazz magazines, JazzReview.com recently reviewed the CD. Check it out and send it to a friend...without mass distribution, word of mouth is the best way to spread the

music. We really appreciate it.

Big Shows In The Works...

Just a quick note to keep all fans in the loop. Just recently some very large performances booked that are not on the schedule yet - about 5 major festivals this summer alone.

They will be posted soon so keep checking back. Some great locations and events to attend this year as word of the music spreads. It also helps us a great deal to draw a good audience so please know that every event you attend makes a big difference!

Bose Corporation and Bryan Team Up!

Bose recently honored Bryan as an official Bose Featured Artist. This means you'll see him backed by the revolutionary Bose Personal Audio System - A revolution in Live sound reinforcement. Click on the Bose Logo for more information on the product. You'll also see Bryan's performance schedule featured on the Bose site.

The system will be featured at Bryan and the band's first big show of the year. Reserve your seats now for the **April 23rd** concert at the "Box Factory For The Arts" in St. Joseph MI. Show starts at 8pm (ET)

Tickets are available at all Michigan Meijer stores or online at www.starticketsplus.com. You can also pick up tickets at the Box Factory the day of the show, but it is expected to sell out so reserve them early - and at a discount.
